PREMIUM DE-HUSKING RUBBER RICE ROLLER

Dependable Performance
Proven Strength

Welcome to Liberty Rubber Products, a well-established and trusted manufacturer of Dehusking Rolls, with a proud legacy of over 40 years in the rubber industry.

Since our inception, we have consistently focused on delivering superior quality products with fastest service, backed by technical expertise, skilled workmanship, and continuous improvement in manufacturing processes. Our long-standing experience has enabled us to understand industry requirements in depth and provide solutions that ensure high efficiency, durability, and reliable performance.

Over the years, Liberty Rubber Products has earned a strong reputation as a market leader in dehusking roll manufacturing, serving rice mills and agro-processing units with products that meet stringent quality standards. Our commitment to excellence, customer satisfaction, and ethical business practices has helped us build lasting relationships with clients across the region.

At Liberty Rubber Products, we continue to innovate and upgrade our technology to meet evolving market demands, while maintaining the trust and confidence we have built over four decades.

LIBERTY RUBBER

Dependable Performance
Proven Strength

PRODUCT RANGE

High-quality rollers engineered for all major rice mill models:

- DMR Series Rollers for specialty milling
- Aluminium & Cl Drums / Cores Rollers
- Custom-designed rollers as per machine requirements

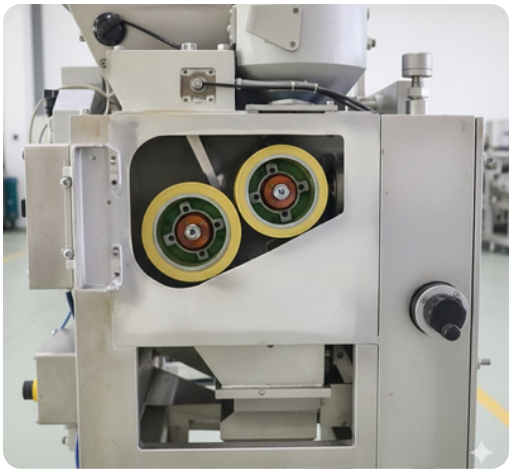

ADVANTAGES & QUALITIES

- High de-husking efficiency for optimal output and enhanced recovery rate
- Reduced grain breakage, ensuring superior rice quality
- Extra running hours with longer operational & roller lifespan
- Use of premium quality aluminium rims for precise balance and error-free performance
- High Tensile Rubber-to-core bonding with zero slippage
- Uniform hardness and superior grip for consistent results
- Heat, friction, and wear resistance for continuous operation
- Smooth and consistent milling performance, even at high speeds
- Reduced wear, lower maintenance requirements, and improved reliability
- Contributes to longer machine life and overall milling efficiency
- We only use imported NITRILE RUBBER, KOREA KUMHO from South Korea

APPLICATIONS

Our rollers are widely used in premium quality rice milling:

- Modern automatic mills
- Mini & medium rice milling units
- Basmati and non-basmati processing plants
- Paddy de-husking systems
- Raw as well as Per boiled rice milling
